New York, NY

PROFESSIONAL SUMMARY

Data Scientist with 5 years experience in machine learning and data analytics.

TECHNICAL SKILLS

- ML & AI: Python, TensorFlow, PyTorch, scikit-learn, XGBoost
- Data Processing: SQL, Pandas, NumPy, Spark, Dask
- Visualization: Tableau, Matplotlib, Seaborn, Plotly
- Cloud: AWS SageMaker, Google Cloud AI Platform

WORK EXPERIENCE

Data Scientist | AI Analytics | New York, NY

February 2020 - Present

- Built recommendation systems serving 1M+ users (improved CTR by 25%)
- Developed fraud detection models reducing false positives by 40%
- Created dashboards for business stakeholders using Tableau

Junior Data Scientist | DataLab | Boston, MA

July 2019 - January 2020

- Cleaned and analyzed large datasets (10GB+) using Pandas
- Built predictive models for customer churn (85% accuracy)

EDUCATION

Master of Science in Data Science

Columbia University, 2018

Bachelor of Science in Statistics

University of California, Los Angeles, 2016
